Summary

Product manager with 3+ years at Microsoft, owning migration and virtual machine features for Azure Local, its hybrid cloud platform. Scaled migration to 880 customers (55+ Fortune 500 and Global 500) running 300,000+ cores.

Experience

Microsoft Redmond, WA
Product Manager II, Azure Local (formerly Azure Stack HCI) Sep 2025 - Present

- Grew VMware and Hyper-V migrations to Azure Local from 114 virtual machines (VMs) in Feb 2024 to 46,000+, making migration the source of 3 in 10 new customer Azure Local VMs since 2025
- Launched general availability of Azure Migrate for VMware to Azure Local migrations in Oct 2025, writing the exit criteria and a three-option proposal that avoided a 6-month wait, with 31,000+ VMs migrated since
- Cut customer-reported incidents nearly 40%, from 6.9 to 4.2 per 1,000 migrated VMs in 2026, with new validation checks, safeguards and retry fixes, while holding a 97.5% migration success rate
- Ran 18 monthly releases since Mar 2025 with no release manager, using AI agents to mock up features from approved UX assets for engineering, without a designer, and to write or update 25 Learn articles
- Shipped SAN migration support, unblocking a dental insurer that has moved 1,800+ of a planned 5,500 VMs
- Proposed and shipped Azure Arc reuse during migration, so Arc-managed VMs keep their configuration, monitoring and extensions with no re-onboarding, unblocking enterprises with hundreds to 10,000 Arc VMs
- Shipped Secure Boot retention (8,800+ VMs, 370 customers), PowerShell, CLI and Terraform automation (PowerShell alone moved 2,000 VMs for 15 customers) and migration support for Trusted Launch VMs
- Partnered with five enterprises (17,000+ cores) before, during and after migration, unblocking hundreds of SQL Server VMs with fast analysis, proposed fixes and release coordination, and gave 4 executive briefings
- Delivered a private preview of a new VMware migration path to six large enterprises two months after a third-party licensing change halted new migrations, leading the impact analysis, options and execution
- Shipped VM Connect console access for Azure Local VMs and designed live migration of VMs across clusters

Microsoft Redmond, WA
Product Manager, Azure Local Migration Feb 2024 - Sep 2025

- Onboarded 40 private preview customers and launched public preview in Oct 2024, with 73 customers migrating 1,700+ VMs at a 97% success rate, winning an organization Impact Award
- Shipped static IP retention for Windows and Linux VMs, used on 19,000+ VMs by 400+ customers since release
- Unblocked a grocery chain's VMware exit with custom disk sector size, critical for SQL Server (1,150+ VMs)

Microsoft Redmond, WA
Product Manager, Windows IoT Mar 2023 - Feb 2024

- Led Microsoft's side of bringing Windows 11 IoT Enterprise to Qualcomm's QCS6490 edge AI chip, now offered on QCS6490 boards from Advantech, Avalue, Avnet, Coretronic and Thundercomm
- Proposed, designed and led 3 of Microsoft's 8 hands-on labs at Embedded World 2024 for customers and OEMs

Microsoft Redmond, WA
Product Manager Intern, Azure Edge May 2022 - Aug 2022

- Compared three ways to run Kubernetes workloads on industrial edge devices, built the Azure proof of concept, and wrote requirements for a new provider in an internal edge orchestration platform that shipped on time

IBM Minneapolis, MN
Cloud Transformation Development Architect Co-op Jun 2021 - Dec 2021

- Led instrumentation of Cloud Databases on IBM Cloud Satellite, published as an IBM Developer code pattern

Skills and Projects

Product and data: Product strategy, roadmaps, go-to-market, customer discovery, Kusto (KQL), Power BI, Python
Platform and AI: Azure, hybrid cloud, Kubernetes, virtualization, on-premises hardware, AI agents, MCP
Projects: trumanbrown.com, a photo and game site using Azure, and side projects at github.com/trumanbrown

Education

University of Minnesota - Twin Cities | Bachelor of Computer Engineering Dec 2022
GPA 3.95, Honors Program, Dean's List all seven semesters, Presidential and three Roger Nordby scholarships
Volunteer emergency medical technician (EMT), University of Minnesota EMS, 2018 to 2022
